Comments:

To be clear, while members of the Democratic Party of Sandoval County attended the work session in which the Sandoval County Commission held their farcical work session, none of our suggestions were implemented in the toothless resolution that will be dead when it hits the Roundhouse. Simply put, we do not support the Sandoval County Commission's wish to suppress the vote.

However, we believe that the democratic votes in the 2022 New Mexico Primary in Sandoval County were good and true. We support every, single democratic candidate on the Primary Ballot. We also honor our republican counterparts' right to discredit the election of every, single one of the republican candidates.
