Comments:

Regarding the proposed ordinance restricting feeding of wild animals: This ordinance is aimed at restricting the feeding of horses in Placitas citing the problems of horses hit & killed on Hwy 165. Those horses have been freely wandering the Placitas area long before our homes and roadways encroached on their range. Our roads cross their paths to naturally occurring food and water sources. Much of their grazing land is to the north of 165 and naturally occurring springs they frequent for water are to the south of 165. Our road crosses their path. Horses will cross the road. Bottom line is horses are killed by speeding drivers. Direct ordinances against those speeding through the horses' path.
