**Comments:**

As a resident of Placitas, I strongly oppose this draft of the ordinance. I recognize I am a guest on these lands that were inhabited by wildlife well before we screwed it up. Residents in favor are talking about horses sucking wells dry? WE suck wells dry with our landscaped yards, pools and wastefulness, not the living, breathing creatures who struggle to find even a droplet of water in this state of drought. The wildlife is "decimating the land and vegetation"? Keep dreaming... the development of multimillion dollar homes destroys ecosystems not the ecosystems that were simply existing and minding their own business before we came in with excavators, poisons to kill "weeds", and our hunger to take more than we give back. Rather than focusing on innocent creatures who are trying to survive, why is the county cracking down on individuals who are regularly speeding & creating a reckless environment for our community?
