Comments:

Please pass the Wildlife Feeding Ordinance. One of my neighbors feeds the so-called "wild" horses and has caused no end of problems for nearby residents. The horses gather at her house every day, block Quail Meadow and Tunnel Springs roads, create traffic hazards, and cause property damage. The horses did not gather in this area before this neighbor began feeding them. Everyone in my household has had dangerous encounters with horses in the roadways, and the horses have damaged our property. Neither the horses nor the humans are safe under current conditions. Thank you for addressing this issue.
