Comments:

I would like to voice my strong opposition to the proposed Wildlife Feeding Ordinance. My objections are several fold: (1) Allen Mills comments miss the crucial nature of the problem in that the motorists ignore the speed limits and don't pay attention to the road. A significant number of people driving in the area should have their drivers license suspended which would be the best way to improve safety for everyone, (2) Second, it is outrageous to even suggest jail time as a possibility for feeding animals, maybe we first look at the drivers who commit vehicular homicide while intoxicated and spent less than 30 days in jail if any time at all? Again it is completely unreasonable to have jail time as an option here (3) Lastly, on a more upbeat tone I would like to see positive action to help the horses instead of a punitive action against good Samaritans who are trying to do the right thing.
