Comments:

I am strongly opposed to the proposed feeding ordinance for the wild horses in Placitas. The horses mostly graze freely but if someone chooses to offer feed and water on their property I do not feel you have the right or authority to legislate this and to make it illegal. What is next? Will it be illegal for me to put out water and bird seed for the wild birds. This is legislative over reach. I moved to Placitas to enjoy the natural beauty of New Mexico and the wildlife. To me it is humans that encroach and damage, not the wildlife. If you want an area denuded of wildlife I suggest moving to an urban area. Leave the rest of us who want to live in harmony with nature alone. A better use of your time would be to catch the speeders who are the ones that hit and kill our horses, our rabbits, our snakes and our tarantulas. Cynthia Puljic
