Comments:

When this topic surfaces, the 'solution' is always against never for our free roaming horses. These horses are the fabric of what makes Placitas! Realtors feature them. 'Yes, if you moved here not knowing then you didn't do your due diligence. We hear from the same mean spirited self proclaimed Horse haters. Placitas has 560 acres (and an additional 200 acresJ for safe haven and passage that once was available to the horses.*It is time to revisit and make these lands available. This closure pushed more horses back into the subdivisions and roadways creating more problems and complaints. Officer Mills printed pamphlets while on the Safety Committee...we have existing ordinances...just enforce them. Don't penalize folks who feed and water appropriately on their own property. This Ordinance would invade people's privacy...period!! Is that the objective? Harass and create enough frustration and thereby a willingness to take the horses away...slaughter. O and while checking the property why not a quick peek into the window...really! Instead of one more 'race to the bottom' let's do something New Mexico can be proud of. Treasure these creatures.Supplement them when needed especially in times of drought and have WATER...it's just being KIND! Folks... It's UP or DOWN...BLACK or WHITE...Placitas is their sanctuary there is no other!!! Just kill pens....sad.
