Comments:

The wild horses American Wild Horses have been here for 1,000 plus years ... humans have taken their land and water and now want them sent to land where they won't have enough water and food to survive ...their next step would be the roundups and slaughter houses. If landowners want to water and give them supplemental food on their own land there shouldn't be an issue .

I've been a realtor for 40 years and since moving to Placitas I've listened to so many new home owners and their reasons for moving to Placitas. One big reason that stood out to me was hearing that they loved the wild horses and their history.

My story was so similar to theirs .

I was visiting here for a few months on my way to a life in Maui, Hawaii, but I fell in love with the beautiful mountains and the wild horses and decided to give up my lifelong dream of living by the ocean beach and enjoy the charm of all the wildlife and roaming wild horses of Placitas.

Instead of concentrating on the few horses that are on the roads , maybe think about the aggressive, speeding drivers that I see every day . Cameras catching these w reckless drivers and increasing the fines HUGELY would slow drivers down to the speed limits and stop breaking the law.

This would bring in extra money for Sandoval County and keep your residents and horses safe.

Thank you, Margit Paulk
