Comments:

I am in favor of leaving the Placitas Wild horse where they belong. I oppose your interference in removing the horses from their native lands. The horses are part of history and we live in the mountains where wildlife is abundant and we respect that. The concern with the horses are accidents where I believe is the drivers fault because of speed or distractions. Drivers should be aware of potential of animals and drive accordingly. Please feel in your heart to leave nature alone. It's just as some did to the natives of our land before us, move them, starve them get rid of them. Thank you for allowing me to voice my opinion. There have to be options.

Julie Du Bois
