Ordinance on feeding animals

I am opposed to your ordinance that says that we cannot feed wild animals. This is cruel and inhuman. If we see a horse dying from starvation are we just supposed to let it die. We feed homeless people, wild birds, stray dogs and cats, and you are saying that we can't save a wild horse.

I agree that we should not feed them all of the time, but we should be able to feed them in emergencies, no grass, and heavy droughts. They have a right to live like we do.

Besides the horses lived here long before we moved here and the land is actually theirs. If we had not moved on their land then they would have enough grass and other materials to live. We are the problem, not them.

Please do not pass this ordinance until you revise it to save starving horses and other wildlife. They are our responsibility and we need to help them live.
