Comments:

I would like to ask the commissioners this:
Would you personally agree to be an observer in a slaughterhouse? Could you actively participate in the slaughter of a horse? Do you believe that you would be willing to listen to the screams of fear and agony as these beautiful, innocent animals are cruelly put to death?
If your answer is yes, then I have to believe that you have no soul. We all know that this will be the eventual fate of the free-roaming, wild horses of Placitas if they are allowed to starve and continue to be harassed. Please reject the proposed Ordinance to Ban the Feeding of Wild Life.
