**Comments:**

Hello.  
I am asking that the county commissioners please consider the consequences of the ordinance pertaining to the feeding and watering of the horses. Please consider the language used in said ordinance and consider the rewording. of it. No one should be feeding horses by the road however, it is very difficult to deny any of our wildlife access to water. This is currently being done with some of our natural water sources here. Please allow the provision of a water source within the referenced ordinance as this pertains to our own private property . It is a basic necessity. To deny this need is cruel. Also, I ask that you take note of the animosity that has already divided so many here in Placitas. Please consider the issues that will take place when people begin spying on one another; this is inevitable. Please consider this plea ,and I thank you for your consideration.
