**Comments:**

I am sickened by the actions of the Sandoval County Commissioners and the Sandoval County Sherrifs office as it pertains to the containment and feeding of the Wild Horses of Placitas. Where will this white privilege stop? These animals need our protection. History has proven that White privilege is directly responsible for animal extinction on our planet. If they don't fit into our idea of convenience we push them out. The wild horses are a reason many people live here in Placitas. It is a quality of life that we are privileged to enjoy. Stopping these horses from roaming and being fed is a lazy ignorant action on the part of Sandoval County. I am ashamed and embarrassed for the lack of foresight of those that are supporting this bill to stop the feeding of these beautiful animals that were here way before we were. This blatant lazy ignorance is also why we have not seen a bill pass to protect animals from being chained up and kept out side in the cold. So many counties and states are way ahead of Sandoval county in this regard. It is embarrassing. When will we stand up and act responsibly for our environment? So many other actions could be tried. Lower the speed limit from the Fire station through the village to 35. Up police patrols. By the way, I see police speeding through the village often. Put up more signage that wild life roams the roads and drivers must use caution, particularly at night. Many other actions can be tried before we take such drastic measures. This is outrageous. particularly after so many people stood up and spoke up in resistance of this bill at the last council meeting. Apparently only two of you were actually listening.
