Comments:

BOARD OF COUNTY COMMISSIONERS,
The proposed ordinance #: 5-10-23-10A (now Resolution 5-24-23.10) and resolution #: 5-10-23-11A are illegal and frankly embarrassing. Trying to prevent actions that Sandoval County residents can perform on private property will not stand up if legally challenged. In addition, the requirement for permitted non-profits as the only way to provide food and water to the horses is pathetic. You have already been informed that existing non-profits are not able to absorb the burden this ordinance stupidly places on them; why even propose this as the only option? Is this pathway worth the cost to Sandoval County residents to address the legal defense of this ordinance? The true reason for the proposed ordinance and resolution are LAND DEVELOPMENT specifically the connection of I-25 and I-40. It is very painful to believe that our elected officials are blind to the resource that our wild horses represent. Clocking the need for this ordinance as a vehicle safety issue is not logical. If Placitas residents continue to speed through our curvy roads, the village and residential areas, the carnage will continue to pets, people and property. I don't see any evidence that the concerns of Placitas residents raised in public meetings have been adequately considered in the resolution that will be voted on. I thought that the county commissioners were elected to represent their constituents and the fact that this has not happened causes a deep sadness within me. No one has demonstrated that a short-cut between I-25 and I-40 is in the best interests of county residents, especially Placitas residents. The quality of life in Placitas will be impacted in a very negative way.
