**Comments:**

I LOVE Heartstrings! I met my best friends there. - Ella Gilbert, age 11

We moved here from Arizona two years ago after the death of my father and father-in-law, plus we were dealing with the painful aftermath of Covid isolation. My daughter was struggling to find connection with the kids here at the public school. We were floundering. I came across Heartstrings while searching the web for a positive activity that my daughter could try out. What we found was an inclusive, loving community where all kids are welcome, all kids have a place, all kids are cheered for, all kids are loved. We found "our people." We found a home.
