Comments:

The Sandoval County Website requires a complete audit. The main page should clearly state when and where the commission meets and where. In its present state, the site is cryptic for most average taxpayers who want to know this so they may attend the commission meetings. By the way, when an average taxpayer enters the lobby of the Sandoval County government, there are no signs anywhere directing taxpayers to the location of the Commission chambers. The 4th floor also fails to provide helpful directional signs to the Commission chambers.

A great starting point for correcting this problem would be a complete audit of the web site so that it much better communicates critical events to the average taxpayer who wants to participate in Sandoval County Commission meetings.
