Comments:

We the people EXPECT you to be warriors, not only for us but “ to save your own skin”. Please refrain from rubber stamping the November 7, 2023 election results as has been documented during your Sandoval County COMMISSION meeting recordings for the past 20 months each of you were elected by a fraudulent election system ; consisting of UNCERTIFIED tabulators, and nefarious election procedures . YOU can not deny you have heard all the supporting data which places you once again responsible for committing a fourth degree felony and TREASON. When you continually bow down to the bully you give it greater power over you .
