**Comments:**

As a resident of Rio Rancho, and a frequent public library patron, I feel having Library oversight by a County wide board is particularly important.  
I always vote in favor of library bonds but would feel more comfortable knowing there was transparency and oversight of how those funds are used following established policies and procedures.  
I am fortunate to live in Rio Rancho and take advantage of all (well, almost all) that our wonderful library system has to offer – mostly books, but movies, music, and puzzles too! The Rio Rancho Library staff is exceptionally knowledgeable and helpful. I would like to see other communities within the county to also be able to benefit from our wonderful system and feel that having a Library Board would be the first step in making this a reality.
