**Comments:**

# resolution # 1-11-23-.9B; rules 7-8  
I find it very interesting the regular scheduled meeting was canceled and a special meeting was scheduled without much notice. To put some special rules in place. To help restrict public comment. It seems with the more time goes by. You are restricting more and more of what our freedom of speech rights are ! It makes it seem, you are really NOT interested in what the concerns are for people you were elected to represent are.  
It's very sad, if I have a problem with how my District Representative dealt with an issue I had. That I can't bring that to the public's attention at the county commission meeting. The public should be made aware of how the issue was dealt with. What choice do I have to make that matter public, but to take it local paper. And hope people will read about how things were handled ? People should be aware of how their District Rep. worked to help them or not.
