Commisioners,
Here are my questions concerning Agenda Item 11 B
* Why are you doing this? Please explain the reasons why you feel that this has to be done?
* Why now? What has changed or occurred that necessitates these changes?
* Why can't we find a better and more USER friendly way(s) of doing what needs to be done to solve these issues?
* Why don't you as the Commissioners take 5 minutes at tonight's meeting to review for us, the rules of conduct, that you expect us to follow when speaking before you? We will gladly follow them if they aren't too draconian!
* Why can't those Rules of Conduct be written down, posted in the entry way and/or written down and given as a handout to all potential speakers? Then add a note on the sign up sheet that anyone wanting to speak must have read and fully understand those rules!
* Why are you trying to shutting down our ability to present documents & exhibits that are important & necessary to making our "case" and supporting our point of view?
* Why is the first thing you try to adopt and impose on us, is to limit or deny our 1st Amendment right, when you haven't even tried to look at or try less intrusive measures. We know you don't like or agree with many of the issues and points of view we bring before you, but isn't that the whole point & purpose of that amendment?
* Lastly, Why shouldn't we believe that this is just the first of many more restrictions you have planned. Will your next solution to a "problem" be to change the time allowed to speak to 30 seconds or perhaps to do away totally with these "pesky" Public Comments???
