**Comments:**

As a long time resident of a small NM community, I know the value and importance of our Library here in Jemez Springs! In so many ways it is a vital center of culture, learning , creativity and camaraderie for the area, and ultimately for our wonderful State of New Mexico and beyond! I so appreciate what the Commission is undertaking on behalf of all in Sandoval County. My one major concern is that there be sufficient representation and consideration for the needs, viewpoints and values of small towns and communities which contribute to the overall unique quality of our wonderful State of New Mexico. Thank you for your service to ALL!
