Comments:

In regards to the proposed Sandoval County Library Board:

I would like to show my concern for the proposed board member selection process. As it stands if the current proposal is approved Rio Rancho will have 6 representing members leaving 6 votes to represent 15 other libraries to the 3 that they have in Rio Rancho. In no way shape or form is this fair or accurate representation of the people that this will serve with library services. This would also give Rio Rancho the ability to decide everything for the other libraries in the county that cannot sustain themselves, yet Rio Rancho libraries could. Again, there are 18 public libraries in Sandoval County and only 3 of them are Rio Rancho Libraries. Why are the smaller/rural/tribal libraries being overlooked in this situation?
