Subject: SUBJECT - Request by Dominguez for re-zoning of 14 acres from residential to Special Use.

To whom it may concern,

I am writing to voice my disagreement with the rezoning request for our neighborhood.

The gravel and trucking company in question has already been running a an operational business on the road of camino del tecolote and this has negatively impacted the entire area in so many ways. I say this as someone who has grown up on camino de la rosa castilla their entire life and has seen the area evolve and change so much - this is easily one of the most negative and devastating changes to have occurred.

We are not only subjected to countless noises and audible disturbances throughout the day (beeping / mechanical noises) but the wear and tear to our roads is significant. We now have heavy equipment and trucks running across our roads hundreds of times breaking things down and contributing to traffic in the area that has nothing to do with our residential neighborhood.

The business's presence changes the appearance of our neighborhood and has led to increased litter, dumping, and general problems surrounding up keep and waste disposal that I believe comes in part, from the fact that the area resembles some sort of industrial environment rather than our residential neighborhood. The countless large trucks parked around the entrance of the area, flat leveled grounds, and clearcut brush alongside this business has decreased the attractiveness of our neighborhood unfortunately.

It is a pity to see that such a business is not instead moved and located in a commercial area, so as not to ruin hundreds of family's property value, peace and tranquility, and cleanliness in an area that so many of us love and protect for the simple beauty of the land itself.

Thank you kindly for your time reading, we hope we can count on your help to preserve what makes Placitas, and especially our area special.

Best,

Brystal barcena
